

Job opening Laboratory Technician

Uniting to lead our industry towards a more sustainable future for our customers and markets.

About us

Archroma is a global leader in the field of color and specialty chemicals, with strong market expertise, highly talented employees, and extensive experience in product quality and expertise. The company, headquartered in Pratteln near Basel (Switzerland), employs around 5,000 people and operates 35 production sites in more than 42 countries.

With two core businesses, Textile Effects (TE) and Packaging Technologies (PT), Archroma delivers specialized performance and color solutions tailored to the needs of customers in their local markets. Archroma is committed to innovation, top-quality standards, high service levels, cost efficiency, and sustainability.

By developing technologies that enhance the visual appeal and performance of everyday products, Archroma helps foster people's desire for a more emotional and sensory product experience. More product, more color, more performance, more life— "LIFE ENHANCED."

Our employees

Our employees work in long-standing partnerships side by side with our customers to develop tailored solutions that help them succeed in their local markets. With passion and commitment to excellence and innovation, our people create specialized performance and color solutions every day that engage our senses and emotions for an enhanced experience.

At Archroma, we promote diversity, equity, and inclusion for all, regardless of gender, nationality, age, education level, and more. Our diverse backgrounds and talents enrich our perspective and help us build a performance-driven and collaborative culture based on our core pillars:

1. Achieving and exceeding goals
2. Adapting and innovating
3. Customer focus
4. Promoting collaboration and diversity

We touch and color people's lives every day, everywhere.
